

ICANS XIII  
13th Meeting of the International Collaboration on  
Advanced Neutron Sources  
October 11-14, 1995  
Paul Scherrer Institut, 5232 Villigen PSI, Switzerland

## Future Opportunities and Present Possibilities for Coherent Inelastic Single Crystal Measurements on Pulsed Neutron Sources

Mark Hagen <sup>(1)</sup>, Uschi Steigenberger <sup>(2)</sup>, Caterina Petrillo <sup>(3)</sup> and  
Francesco Sacchetti <sup>(3)</sup>

<sup>(1)</sup> Physics Department, University of Keele, UK

<sup>(2)</sup> ISIS Facility, Rutherford Appleton Laboratory, UK

<sup>(3)</sup> University of Perugia, Italy

This paper is available as **RAL Report RAL-95-006** and is accepted for  
publication in **Journal for Neutron Research**.

## Pulsed Magnetic Fields and Pulsed Neutron Sources

Further information from this workshop which was held 29 - 30 June 1995 can be  
obtained from :
